

Steering Committee:

George Bebis, Univ of Nevada, Reno, USA
 Bahram Parvin, Berkeley National Lab, USA
 Richard Boyle, NASA Ames Research Center, USA
 Darko Koracin, Desert Research Institute, USA

Computer Vision Chairs:

Ronald Chung, The Chinese Univ of HK, Hong Kong
 Riad Hammoud, DynaVox Systems, USA

Computer Graphics Chairs:

Muhammad Hussain, KSU, Saudi Arabia
 Kar-Han Tan, Hewlett Packard Labs, USA

Virtual Reality Chairs:

Roger Crawfis, Ohio State University, USA
 Daniel Thalman, EPFL, Switzerland

Visualization Chairs:

David Kao, NASA Ames, USA
 Lisa Avila, Kitware, USA

Keynote Speakers:

Tobias Hollerer, UC Santa Barbara, USA
 Ioannis Kakadiaris, Univ of Houston, USA
 Marc Pollefeys, ETH Zurich, Switzerland
 Steve Seitz, Univ of Washington, USA
 John Stasko, Georgia Tech., USA
 Aditi Majumder, UC Irvine, USA

CALL FOR PAPERS

6th International Symposium on Visual Computing

ISVC10
November 29 - December 1, 2010
Monte Carlo Resort & Casino
Las Vegas, Nevada, USA
<http://www.isvc.net/>

Scope

The purpose of the International Symposium on Visual Computing (ISVC) is to provide a common forum for researchers, scientists, engineers and practitioners throughout the world to present their latest research findings, ideas, developments and applications in the broader area of visual computing. ISVC10 will consist of invited and contributed presentations dealing with all aspects of visual computing. In addition to the main technical program, the symposium will include several keynote speakers, posters sessions, and special tracks.

Topics

ISVC seeks papers describing contributions to the state of the art and state of the practice in the field of visual computing. The symposium is structured around the four central areas of visual computing: (1) **computer vision**, (2) **computer graphics**, (3) **virtual reality**, and (4) **visualization**. In particular, we are interested in papers that combine technologies from two or more of these areas.

- **Computer Vision:** Color and texture; Segmentation and grouping; Motion and tracking; Image-Based Modelling; 3D reconstruction; Shape representation and recognition; Video analysis and event recognition; Face/gesture analysis and recognition; Human-computer interfaces; Medical image analysis; Image and video retrieval; Sensors and Systems; Secure Image/Video Communication; Image/Video Encoding/Compression; Applications.
- **Computer Graphics:** Geometric Modelling; Geometric Algorithms; Graphics Algorithms; Web Based Graphics; Computer Animation; Special Effects; Rendering Techniques; Global Illumination; Volume Graphics; Graphics Architectures; Systems and Hardware; Applications.
- **Virtual Reality:** Augmented Reality; Mixed Reality; Artificial Reality; Modeling and Simulation; Real-Time Rendering; Collision detection in VR; Virtual Humans and Artificial Life; Virtual Environments; Tele-collaboration; VR System Architecture; Multimodal displays; Projection and Display Systems; Human Computer Interaction; Integration of VR and Multimedia; Haptics; Human Factors; Hardware Devices; Applications.
- **Visualization:** Information Visualization; Large Scale Data Set Visualization; Medical Data Visualization; Volume Visualization; Vector and Tensor Visualization; Flow Visualization; Airspace/Terrain and Sea-bed Visualization; Isosurfaces; Rendering Techniques; Visualization Systems; Mesh Techniques and Compression; Human Factors; Human Perception; Applications.

Submission Procedure

Papers submitted to ISVC 2010 must not have been previously published and must not be currently under consideration for publication elsewhere. Manuscripts should be submitted in camera-ready format and should not exceed 12 pages, including figures and tables (see <http://www.isvc.net> for details). Papers will be reviewed with an emphasis on potential to contribute to the state of the art in the field. Each paper will receive at least two blind reviews and should not contain names or other information revealing authors' identity. Selection criteria include accuracy and originality of ideas, clarity and significance of results, and presentation quality. All papers accepted will appear in the symposium proceedings which will be published by **Springer-Verlag** in the **Lecture Notes in Computer Science (LNCS)** series (ISI Science Citation Index Expanded, ISI SCI(E)).

Special Tracks

Special tracks are intended to stimulate in-depth discussions in special areas relevant to the symposium theme. Proposals for special tracks are currently being solicited (see <http://www.isvc.net>).

Important Dates:

Special track proposals:	3/15/2010
Paper submissions	7/12/2010
Notification of acceptance	8/31/2010
Final camera ready paper	9/15/2010
Advance Registration	9/15/2010
ISVC10 Symposium	11/29 – 12/1/2010
