

#### Steering Committee:

George Bebis, Univ of Nevada, Reno, USA  
Bahram Parvin, Berkeley National Lab, USA  
Richard Boyle, NASA Ames Research Center, USA  
Darko Koracin, Desert Research Institute, USA

#### Computer Vision Chairs:

Ronald Chung, The Chinese Univ of HK, Hong Kong  
Riad Hammoud, DynaVox Systems, USA

#### Computer Graphics Chairs:

Muhammad Hussain, KSU, Saudi Arabia  
Kar-Han Tan, Hewlett Packard Labs, USA

#### Virtual Reality Chairs:

Roger Crawfis, Ohio State University, USA  
Daniel Thalman, EPFL, Switzerland

#### Visualization Chairs:

David Kao, NASA Ames, USA  
Lisa Avila, Kitware, USA

#### Keynote Speakers:

Dorin Comaniciu, Siemens, USA  
Tobias Hollerer, UC Santa Barbara, USA  
Ioannis Kakadiaris, Univ of Houston, USA  
Marc Pollefeys, ETH Zurich, Switzerland  
Steve Seitz, Univ of Washington, USA  
John Stasko, Georgia Tech., USA

# CALL FOR PAPERS

## 6<sup>th</sup> International Symposium on Visual Computing

**ISVC10**  
**November 29 - December 1, 2010**  
**Monte Carlo Resort & Casino**  
**Las Vegas, Nevada, USA**  
<http://www.isvc.net/>

### Scope

The purpose of the International Symposium on Visual Computing (ISVC) is to provide a common forum for researchers, scientists, engineers and practitioners throughout the world to present their latest research findings, ideas, developments and applications in the broader area of visual computing. ISVC10 will consist of invited and contributed presentations dealing with all aspects of visual computing. In addition to the main technical program, the symposium will include several keynote speakers, posters sessions, and special tracks.

### Topics

ISVC seeks papers describing contributions to the state of the art and state of the practice in the field of visual computing. The symposium is structured around the four central areas of visual computing: (1) **computer vision**, (2) **computer graphics**, (3) **virtual reality**, and (4) **visualization**. In particular, we are interested in papers that combine technologies from two or more of these areas.

- **Computer Vision:** Color and texture; Segmentation and grouping; Motion and tracking; Image-Based Modelling; 3D reconstruction; Shape representation and recognition; Video analysis and event recognition; Face/gesture analysis and recognition; Human-computer interfaces; Medical image analysis; Image and video retrieval; Sensors and Systems; Secure Image/Video Communication; Image/Video Encoding/Compression; Applications.
- **Computer Graphics:** Geometric Modelling; Geometric Algorithms; Graphics Algorithms; Web Based Graphics; Computer Animation; Special Effects; Rendering Techniques; Global Illumination; Volume Graphics; Graphics Architectures; Systems and Hardware; Applications.
- **Virtual Reality:** Augmented Reality; Mixed Reality; Artificial Reality; Modeling and Simulation; Real-Time Rendering; Collision detection in VR; Virtual Humans and Artificial Life; Virtual Environments; Tele-collaboration; VR System Architecture; Multimodal displays; Projection and Display Systems; Human Computer Interaction; Integration of VR and Multimedia; Haptics; Human Factors; Hardware Devices; Applications.
- **Visualization:** Information Visualization; Large Scale Data Set Visualization; Medical Data Visualization; Volume Visualization; Vector and Tensor Visualization; Flow Visualization; Airspace/Terrain and Sea-bed Visualization; Isosurfaces; Rendering Techniques; Visualization Systems; Mesh Techniques and Compression; Human Factors; Human Perception; Applications.

### Submission Procedure

Papers submitted to ISVC 2010 must not have been previously published and must not be currently under consideration for publication elsewhere. Manuscripts should be submitted in camera-ready format and should not exceed 12 pages, including figures and tables (see <http://www.isvc.net> for details). Papers will be reviewed with an emphasis on potential to contribute to the state of the art in the field. Each paper will receive at least two blind reviews and should not contain names or other information revealing authors' identity. Selection criteria include accuracy and originality of ideas, clarity and significance of results, and presentation quality. All papers accepted will appear in the symposium proceedings which will be published by **Springer-Verlag** in the **Lecture Notes in Computer Science (LNCS)** series (ISI Science Citation Index Expanded, ISI SCI(E)).

### Special Tracks

Special tracks are intended to stimulate in-depth discussions in special areas relevant to the symposium theme. Proposals for special tracks are currently being solicited (see <http://www.isvc.net>).

### Important Dates:

Special track proposals:	3/15/2010
Paper submissions	7/12/2010
Notification of acceptance	8/31/2010
Final camera ready paper	9/15/2010
Advance Registration	9/15/2010
ISVC10 Symposium	11/29 – 12/1/2010
